Curved maple library shelving, accentuated with grey infill panels and plinths.

CASE STUDY

DORKING LIBRARY

This popular public library was relocated from an old existing building to a precinct area to occupy what was formerly three separate retail units.

The location, accommodation and budget meant that the design needed to be fresh and inviting, whilst incorporating the clients branding. The retail position meant that bookshop and library styling needed to combine to broaden the appeal from the pavement.

KEY FEATURES

- Branded external signage
- All wood effect shelving, fitted with lit panels to accentuate specific areas whilst attracting attention to book stock.
- Contemporary colour schemes draw attention from various perspectives.
- Shelving positioned to define areas, with each area being given design treatment to suit designated space.
- Bespoke furniture installed around existing fixtures.
- Childrens' feature wall with dynamic lighting, brightly coloured furniture and bespoke kinder boxes.

Bookshop style illuminated displayer.

Mobile island bays with wow end panel face on display.

Branded acrylic goalpost signage.

*Entrance featuring enhanced display and self issue station.
* existing display furniture utilised.*
