

WE ARE LIBRARY PEOPLE®

Bracknell Central Library, UK

The new Library at Bracknell is another proud notch on thedesignconcept's belt. We worked closely with the library's dedicated and passionate team and were able to create a new, inviting space that encourages the public to relax and linger.

Bold graphics and bursts of colour, together with free wifi and easy access to all areas, culminate in a modern yet effortless user experience that is sure to have customers coming back for more. We are delighted to be part of the revitalization of this old building, which will certainly serve the Borough of Bracknell Forest well into the 21st century with the latest technologies and of course, lots of beautiful books.

Don't take our word for it...

thedesignconcept impressed us with their plans which really brought the 1970s building into the 21st century. The design was bold, colourful and innovative yet sympathetic to the building. The use of graphics on walls and end panels certainly gave the library the 'wow' factor. The colour scheme, with each floor having a different accent colour, toned in beautifully with the black shelves. The modern furniture complemented these accent colours well.

I think it's fair to say that we've moved away from the traditional concept of what a library should look like. Bracknell Library has a fresh new look that the customers appreciate.
