- Meeting Pods

Secondary Schools & Colleges

Creating Beautiful Learning Spaces

Welcome

Recent studies have produced clear evidence about the impact of reading on learning outcomes and personal development. Creating a stimulating and vibrant library space is key to helping young people develop the learning strategies they need to become independent and lifelong learners.

The principles of good intuitive design are hugely important for schools, and enthusiasm for library use, both for pleasure and study need to be nurtured so that these skills once learnt, can become the tools of future development

We recognise that every school & college is different and are able to offer a wide variety of solutions for creating the best possible library for your needs.

Whether it is a complete new library or just refreshing an existing space, use our free design service to help you visualise how the finished project will look and let us help you put reading at the heart of your school!

Free Design Service

Planning a new library while working in a busy school environment can be a challenge so why not use our experience to make things a little easier.

One of our team can visit your school, measure the space and discuss exactly how you want the space to work. We will then produce a plan so you can be sure that the finished library is exactly how you imagined!

Schools and us

We are at the forefront in changing libraries

As a design led furniture manufacturer and supplier, we work with you to improve the reader experience. By using intelligent design to create vibrant, welcoming and colourful spaces, we take the role as leaders in our field very seriously.

Education is the fastest growing part of our business

The importance we place on development has never been more significant. We know that a school library or resource centre is no longer just about books, but a place where students go to enjoy the different types of media available. It is an oasis where they can indulge in study time whilst enjoying inspiring surroundings.

We offer the highest quality of design

Our highly skilled designers are the backbone of the company. Our aim is to use well thought out design to create the type of surroundings where students will want to spend time. Clever zoning alongside effective use of nooks and crannies can help to create an environment which is ideal for reading and studying. We use computer aided design for our schematic drawings and can even offer 3D realisations to really lift our proposals from the page.

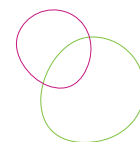

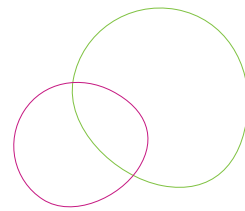

Books

FG Library offer a wide range of shelving & display solutions to cater for all types of learning spaces. Shelving is one of the most important elements to choose for your new library and we offer the ultimate selection to help promote your stock and encourage reader development

learning space

Learning

At FG Library, we understand that students learn in different ways. Intuitive spaces to read, research and study are key to learning outcomes.

The use of colour and graphics can also dramatically influence the look and feel of a room and have a positive effect on both students and teachers.

We will create a place where young people want to learn, and provide them with surroundings to support them

Environment

Creative spaces help to encourage creative thought, and a stress free environment is vital to support learning. Comfortable furniture, clear guiding and good acoustics help create a welcoming and inspiring space that give more opportunity for interaction between students and staff

Visit our website today for inspiration about creating your own learning space.

Communicate

Create welcoming space to meet, greet and mingle in social areas. As well as some great café and breakout furniture, we offer many stylish library & reception counters, and we can even design something special, just for you!
