

# Morna International College

Ibiza

## Case Study

## The Brief

FG Library & Learning's experience was called upon to design a brand new library situated within a new extension at Morna International College, Ibiza a member of the National Association of British Schools in Spain (NABSS).

The brief called for a bright and modern design incorporating spaces for quiet reading as well as study areas for both individual and group use.

The need for flexible or mobile furniture was a key priority as the library is often used for various events and meetings requiring different room layouts.

FGLL were also asked to supply bespoke fitted perimeter IT benching to a new IT suite that was located adjacent to the library.

## The Solution

After initial discussions were held and designs were proposed, a member of the FGLL team went out to Morna International College in Ibiza to finalise the design, carry out a finishes workshop and an in-depth site survey.

The solution included a mix of easy to move free standing furniture and the modern and flexible Landscape shelving allowing for the reconfiguration of the library space to suit required meeting or conference layouts.

For the IT suite, the final design included acrylic privacy dividers and integrated cable management.

Once all details were confirmed, FGLL manufactured the furniture in England and expertly prepared all items ready to be exported to Ibiza.

When all the components safely arrived in the Balearics, a team of FGLL fitters were dispatched to off load and install the furniture, completing a fantastic project which has left everyone excited for the new school term ahead.

**“We were very happy with the service provided from initial enquiry through to installation by FG Library & Learning. We are really pleased with our new library and IT suite” – Julie Anne Harwood, Business Manager’**

For this project FG Library & Learning teamed up with one of the UK's leading educational supply consolidators, VPJ Solutions to provide a turn key package for the customer.
