Welcome

Creating a stimulating and vibrant library space is key to helping children develop the learning strategies they need to become independent and lifelong learners.

Having a dedicated school library or learning area encourages children to pick up books. Enjoying reading at an early age and dedicating special time for learning provides the building blocks of a child's educational future. Early starters are much more likely to develop a lasting love of books and reading.

At FG Library & Learning we understand how important it is to create special reading areas for school libraries. We have experience in crafting learning spaces for young people of any age, and our passion is to design a school library that is right for you, your aspirations and your budget.

Our Design Service

Planning a new library can sometimes seem a little daunting. With FG Library & Learning you are in good hands - we will guide you through it.

One of our local Consultants will be more than happy to come and talk about your ideas and how you plan to use the space - this is the first step in your design process.

Schools and us

We are at the forefront in changing libraries. As a design led furniture manufacturer and supplier we work with you to improve the reader experience. By using intelligent design to create vibrant, welcoming and colourful spaces, we take the role as leaders in our field very seriously.

Schools are the fastest growing part of our business and the importance we place on their development has never been more significant. We know that a school library today is no longer just a room to store books, but a place where children go to enjoy the different types of media available. It is an oasis where they can indulge in study time whilst enjoying inspiring surroundings.

Our highly skilled designers are the backbone of the company. Our aim is to use well thought out design to create the type of surrounding where children will want to spend time. Clever zoning alongside effective use of nooks and crannies can help to create an environment which is ideal for reading and studying. We use computer aided design for our schematic drawings and can even offer 3D realisations to really lift our proposals from the page. We offer the highest quality of design, craftsmanship and overall service to our customers at all times.

However small or large your space, we know how to bring it to life!

Design to inspire

FG Library & Learning offer a wide range of shelving solutions to cater for any of your library needs. Shelving is one of the most important elements to choose for your new library and we offer the ultimate in choice.

A little bit of magic...

... goes a long way when designing an area for the special story time!

Creating a sympathetic and vibrant environment is key to a great children's area. We offer a fully co-ordinated range of furniture in either conventional or bespoke formats to produce the perfect solution.

Our specialist designers are experts in creating bespoke themed spaces that are bright, exciting and secure areas for children. Special care is given to all children's products to ensure ultimate safety and durability.

Creative spaces help to encourage creative thought, and a stress free environment is vital to support learning. Comfortable, age appropriate furniture helps to create a welcoming and inspiring space that gives more opportunity for interaction between staff and children.

StoryWall®

Creating immediate 'wow' in any space StoryWall® is a magical oasis where children can indulge in study times whilst enjoying inspirational surroundings.

Designed by our own in-house design team, the range includes a selection of modules especially created to meet the display and storage needs of libraries and learning spaces and we are adding extra modules all the time! All you need to do is select which modules you need to build up your very own StoryWall® and create a unique learning space.

Supplied as either single sided to use against an existing wall, or double sided to form a room divider, whichever design you choose, you can be sure that the children will love to spend time exploring what StoryWall® has to offer.

StoryWall® is fully customisable with colour and graphics, so if you don't see what you are looking for in our standard selection, then get in touch and we can arrange for one of our design consultants to visit and discuss your exact requirements.

For your learning area

At FG Library & Learning, we understand that children learn in different ways. Clever spaces to read, research and study are key to learning outcomes.

Keep classrooms clutter-free and integrate both storage and resources with our TeachingWall®. Tailored to suit your exact requirements, we offer both modular and bespoke systems. TeachingWall® not only houses a Smartboard or screen, but also offers sliding whiteboards, high and low-level locking cupboards, tray storage and workspace, all with a small footprint to maximise the use of your space.

TeachingWall® helps you organise your classroom, leaving you free to do what you do best: teach.

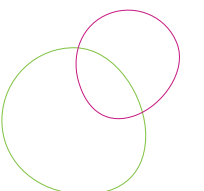

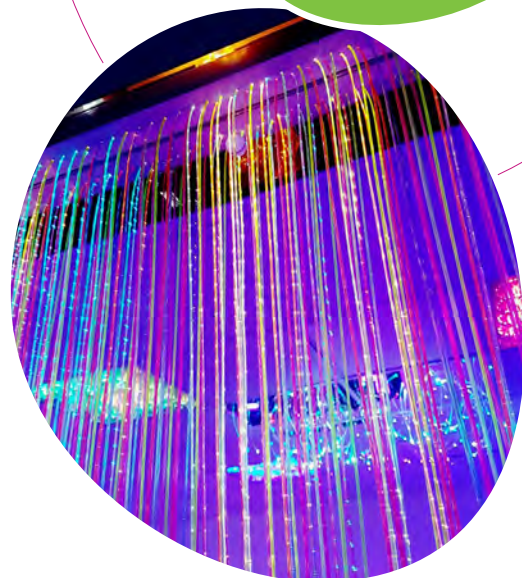

Sensory

Traditional storytime can be hard for children with special educational needs, however books can be represented using touch, music and movement.

Our Sensory StoryWall® gives children more ways to absorb and process information. Designed by our own in-house design team to include a selection of standard modules which are fully customisable with colour, graphics and accessories, Sensory StoryWall® was created to meet all display, storage and educational requirements.

We also provide a range of stand alone sensory products such as bubble tubes, fibre optic lights, tactile play areas and musical items to ensure that all individuals' needs are met.
