

WELWYN GARDEN CITY

*From author talks to baby rhyme
times, there are events for everyone
at this library*

Hertfordshire county council approached WF Education as they needed a complete redesign of the Welwyn Garden City Library.

On the ground floor, WF supplied new enquiry pods, new loose furniture, a children's feature and some Cantilibra™ shelving. We re-configured and added some new end of bay displayers to their existing Bomefa shelving.

On the first floor, there was already a good amount of shelving, but there was still a need to provide more study and casual seating and a small business library area. We supplied a new enquiry pod and all the loose furniture. We then re-configured the existing shelving to suit the new layout.

Also on the first floor is the creator space, where we supplied our Everna™ shelving for all the units. The creator space is a real hub and a focal point for young people and communi groups. It contains 3D printers, photography equipment and an audio visual suite.

«We are very pleased with the spacious feel that the refurbishment has created, particularly our large and airy study area and the flexible events space at the front of our library»

- Joanne Smith, Library Manager

Want to follow in the footsteps on Welwyn Garden City?

Our design team can help you with your next amazing library space, using our truly turnkey in-house service - dealing with one friendly team, from tender to reality.

Our specialist design team will consult with you and your colleagues to make layout suggestions which will maximise your space and budget.

We have taken care that the elements we offer are robust and appropriate for use and here we place great importance on providing quality furniture, equipment, and resources, that will stand the test of time.

For full fit-out projects or multiple spaces we will illustrate our ideas using CAD drawings and, if appropriate, 3D colour renders to help you visualise the proposed space.

WF Education will provide you with all the help you need, from planning your library layout design right through to installation, aftercare and maintenance.

«Communication with WF Education was always good and their staff were pleasant to work with»

- Joanne Smith, Library Manager
